

Will GEI power be Zambia's first solar plant with battery storage?

Turkey's YEO is partnering with Zambian sustainable energy company GEI Power to develop a 60 MW/20 MWh solar plant with battery storage in Choma district, southern Zambia. The facility has been touted as Zambia's first solar plant with battery storage.

Can battery storage be used with solar photovoltaics in Zambia?

The Zambian regulation foresees customs duty and VAT exemptions for most equipment used in renewable energy or battery storage projects. Detailed information is provided in In this section, we discuss the opportunity of battery storage in combination with solar photovoltaics from a financial point of view.

How much does a solar battery cost in Zambia?

Africa Clean Energy Technical Assistance Facility. (2022). Customs Handbook for Solar PV Products in Zambia. Bloomberg New Energy Finance. (2022, December 6). Lithium-ion Battery Pack Prices Rise for First Time to an Average of \$151/kWh.

How much solar power does Zambia have?

Zambia's installed solar capacity stood at 124 MW at the end of 2023, according to the International Renewable Energy Agency (IRENA). In April, Canadian developer SkyPower Global signed a 1 GW power purchase agreement with state-owned utility Zambia Electricity Supply Corp. Can solar power save money in Zambia?

With its year-round sunshine and geographical location, Zambia is well positioned to integrate solar power into its energy mix dominated by climate-vulnerable hydropower. "The Scaling Solar Project will make Zambia save significant amounts of money in the long run," said Ina Ruthenberg, World Bank Country Manager for Zambia.

Why should German and European service providers invest in Zambia?

For German and European service providers active in the energy sector, Zambia presents significant potential for business development. There are clear needs across the solar energy and storage value chain, including project development and financing, equipment manufacturing, system integration and contracting.

PV facility with a 20 MWh Battery Energy Storage System in the Chifwepa/Gamela area of Chief Cooma, Choma District, Southern Province of Zambia. It is a partnership between GEI Power Limited, a major player in Zambia's sustainable energy sector, and YEO Energy Investments Inc., a subsidiary of YEO Technology, a leading technology
