Hi @Leon Zimbabwe I'm sorry I didn't pay attention to your question until recently. Please see the diagnosis results and suggestions from Pylontech technical team below. The cause of this alarm message: Our battery has a kind of BMS logic: When the battery is not charged or discharged for 3 days, always in idle state.

For atmospheric scientist Dr. Wade Permar, it's a very exciting day. It's late fall in Montana, and thick plumes of smoke rise from a forest fire whilst students and staff from the University of Montana FireCenter stand with rakes and water hoses.

Not all batteries are created equal. When using a series string or series/parallel bank to create differing voltages and Ah ratings from individual 12 Volt batteries, we can end up with a variance in terminal voltages on each battery, which causes the batteries to become unbalanced. This situation is often made even worse by the [...]

Invites you to a one day technology workshop; featuring various LiFePo4 battery brands, the GREEN Solar Academy Zimbabwe and Victron Energy products. This one day event is being held in conjunction with REAZ; the Renewable Energy Association of Zimbabwe.
