

-- Zonful Energy (@zonfulenergy) April 9, 2021. William Ponela, le président-directeur général de Zonful Energy, a déclaré : « Avec ce projet, nous allons aider nos clients ruraux à financer l'achat de leurs smartphones d'une manière abordable ». Il a par ailleurs indiqué que le projet s'attaquera également à la ...

Welcome to Zonful Energy. We're a pioneering last-mile distribution company in Zimbabwe, dedicated to providing access to energy products, smartphones, and solar powered irrigation as a service for all. Our mission is to empower communities and transform lives through clean, reliable, and affordable energy solutions. ...

By Alois Vinga, bird story agency. The off-grid solar company Zonful Energy has powered over 30,000 homes and currently has a subsidiary business in Mozambique as part of its regional expansion strategy.. As a boy, William Ponela always hated being stuck in the dark after the paraffin-powered lamps in the family's home ran dry.

KC: What exactly does Zonful Energy do? WP: We supply energy to off-grid markets although we also accommodate people that are connected to the grid. The customer pays a small deposit then they progressively pay ...

Zimbabwean startup Zonful Energy secured USD 300 K from Persistent Energy Capital (PEC) in the form of convertible notes. The raised capital will aid the firm to carry on their vision of providing for off-grid households. It was a year ago when Zonful surfaced and rapidly sold and has installed over 5,000 solar home systems in Zimbabwe, in an attempt to address ...

Harare-based Zonful Energy, a provider of clean energy solutions to off-grid households, has secured its first funding round from Energy Access Ventures. This is the second round the startup has secured in the last 3 months, with the previous investment of 300 K coming from Persistent Energy Capital.. Zonful aims to use the current funding raised to strengthen its ...

Zonful Energy is a for profit social enterprise that sells modular de-centralised and scalable solar energy systems on Pay As You Go model to rural, urban and peri-urban off-grid consumers in Zimbabwe. The solar energy systems consist of solar panels, batteries and a broad range of appliances including lights, radios, televisions and many more ...

Zonful is a Zimbabwean energy company bringing affordable solar power to the country's off-grid, rural areas.. In a country with high youth unemployment, training is at the heart of Zonful's business model. Trainees at Zonful's academy learn how to install and fix renewable energy systems, but also marketing, finance and other business skills.

This webinar presents research on the growth and fundraising journeys of last mile distributors (LMDs), shares first-hand insights from two GDC members on different growth trajectories (Bidhaa Sasa and Zonful Energy), and explores outcomes and next steps from the LMD Investor Forum which was co-hosted by GDC and Acumen in April 2021.
