At 20 megawatts (MW) of electricity storage capacity, it is currently the largest battery storage facility in

operation in ...

AltaGas Pomona Energy Storage Inc. purchases wholesale energy to charge the facility and sells the stored energy into the California ISO market, according to the April 28 order. (FERC docket EC20-46) AltaGas Power Holdings is a subsidiary of Canada-based AltaGas Ltd., while Ormat Nevada is owned by Ormat Technologies Inc.

The purchase expands Ormat's energy storage portfolio to 73 MW/136 MWh as the company already has battery storage assets in New Jersey, New England and Texas. Pomona has been in commercial operation since end-2016 and has a 10-year energy storage resource adequacy deal with Southern California Edison Company.

"This acquisition is an important addition to our energy storage segment, and it strengthens our activity in the California market, which is the largest and most attractive market in the US for renewables in general and for energy storage in particular.

Find and compare local self-storage units in Pomona, CA, and surrounding areas nearest you. Pay \$1 for your 1st month rent for a limited time only! Public Storage in Pomona, CA, offers all unit sizes, climate controlled storage and more at a location near you.

OX2 sells its first energy storage facility. April 3, 2024, 08:00. Non-regulatory ... Lithuania, Poland, Romania, France, Spain, Italy, Greece, and Å...land.
